LED ALL FLASHING STRING LITE® 120

-

Description:

Our new ALL Flashing String Lite®, with a length of 12 meters, creates an atmosphere of sparkling brilliance around any object with its 120 light points. The special feature of this light chain is that each individual LED blinks, so all 120 LEDs together create a dynamic and romantic flashing effect. With a light point distance of 10 cm and high luminosity, it illuminates any place beautifully. This light chain consists of 3 segments, each 4 meters long, which are individually replaceable, ensuring perfect lighting at all times. Each segment can be replaced separately, enhancing the flexibility and longevity of these enchanting light curtains. The power supply for the connected 36V products is provided by a central transformer, which determines the number of light curtains to be coupled. This QuickFix™ product is individually quality-tested and meets IP67 protection standards, ensuring a safe, harmonious, and romantic atmosphere, ideal for safe use in hand-held areas.
