SPECIFICS

- It should be a 2D Photopoint standing on a black plate like the same by the picture frame 621-784 - There is a aluplate on the front where the customer can personalize it with sticker and so on (this will be ordered seperatly) - The two Gingerbread should be made of a print foil like the Organic Henry (150-966) and has a Outline with Ropelite ww. Please use the vector/illustrator File for a better resolution. - We only see the Gingerbread from the front so you only have to make the print on one side - Plan the Power Supply on the floor direkty by the motif
